# NEWMILNS

## MANAGED PARKS AND OPENSACES

Newmilns is sandwiched between two estate landscapes with Loudoun Castle to the north-west and Lanfine Estate to the south-east. On the edge of the settlement is Parkerston Woods which connects directly into Lanfine estate and offers walking routes and connections to the Irvine Valley paths. The River Irvine corridor provides green links to the centre of town, Darvel and surrounding countryside including the Lanfine estate south east.

The open spaces within the town are predominantly small parks and amenity green space with the largest space located at the western edge of the town and includes a sports area with running track and amenity green space. Accessibility via informal paths and minor roads to open spaces out with the settlement is important with the River Irvine corridor and estate landscapes of Loudoun Castle and Lanfine providing landscape setting and recreation assets to the town.

## SCHOOLS

**Newmilns Primary School and Early Childhood Centre** is currently only used for school activities such as parent council meetings and parents' nights. It is not generally used for community use out with school hours. However, the school grounds are used each year to support the Newmilns food Festival
